# Suggested Sequencing of Modules by Level

**CS Academy**  
Aspire Create Excel

**Dear Student,**

This document is a guide to access and use Naviance, the career guidance tool. We recommend you go through the modules in the order suggested in this document. The tool provides a combination of research modules (R) and assessment modules (A). The Research modules can be accessed as you wish at any time. Please set aside quiet time to do the assessment modules when you are focussed and can think clearly. Some of these assessments can be taken only once and you will not be able to repeat them after completion.

If you have completed some of the modules in the previous years, then you can move directly to the new ones. If you have any queries regarding access to the modules, please contact your career counsellor at CS Academy.

Suggested Order of Modules and Description
